

FarSeat Demo Classroom

A geometry-first presentation review

Normal body slide

This line is intentionally comfortable in size.

A second body line gives the parser another element.

Deliberately small body

This small sentence is intended to trigger review from farther modeled seats.

FarSeat should trace the result back to this exact region.

Mixed text sizes

Large explanatory text

Smaller supporting text should be measured separately rather than hidden by the larger line.

Ultra-wide slide

On a 16:9 display this slide letterboxes vertically, changing active-image height and viewing ratio.
